Indiana Pacers and the NCAA. Now is the time
to showcase your skills in your competitive

events and see who has what it takes to make it to the International Leadership Conference. Give it all you can and make sure to have fun while doing it. We have several informative speakers for you to explore the health care industry as well as hands on workshops. We'd also like you to take advantage of our College and Career Expo held in the main foyer. Employers and colleges will be accepting resumes as they will be actively recruiting you. Good luck to everyone, we can't wait to see who takes home the medals this year. We hope you enjoy your conference and have the experience of a lifetime. Find a purpose for your passion.

If you have a deep desire to make a difference in the lives of others, there are many career opportunities available to you in skilled nursing and assisted living. While a paycheck may be enough reward for performing a job, your life's work deserves more. Fulfillment. A sense of purpose. The knowledge that you are making the world just a little bit better.

A career in skilled nursing or assisted living meets all those criteria – fulfillment in knowing that you are making a difference in the lives of individuals not related to you, purpose in focusing on other people rather than yourself, and often immediate evidence that you are improving the world one smile at a time.
